Ivor Searle expands remanufactured gearbox range for VW Group

New five-speed manual transmissions for popular petrol and diesel models from Volkswagen, SEAT, and Škoda are now available with a 12-month warranty

Adam Lane January 26, 2026 Comments Closed 0 likes

Ivor Searle has added eight manual transmissions for Volkswagen Group applications to its remanufactured gearbox programme. The company's total range currently covers over 90% of the UK's passenger car and light commercial vehicle (LCV) parc.

The new additions focus on two primary powertrain configurations:

- **1.2 litre petrol:** Five-speed units for the VW Polo, SEAT Ibiza, and Škoda Fabia and Rapid (2014–2018).
- **1.6 litre diesel:** Five-speed units for the VW Golf, SEAT Leon, and Škoda Octavia (2012–2015), alongside the VW Caddy (2010–2015).

All remanufactured gearboxes are supplied with a 12-month unlimited mileage parts and labour warranty. To support workshop efficiency and reduce vehicle downtime, the remanufacturer maintains stock for free next-day delivery to the UK mainland on orders placed before 3:30 pm.

The expansion follows Ivor Searle's strategy of providing a cost-effective alternative to new components while maintaining OEM-standard specifications. For full application details or to check stock, workshops can contact the sales team or visit the [Ivor Searle website](#).
