Ivor Searle adds to turbo range for VW Group 1.0L petrol engines

Remanufactured units offer cost-effective solution for popular models

Adam Tudor-Lane December 5, 2024 Comments Closed 0 likes

Leading remanufacturer Ivor Searle has expanded its extensive turbocharger program with a unit specifically designed for the Volkswagen Group's 1.0 litre, three-cylinder petrol engine.

This remanufactured turbo offers a cost-effective solution for owners of various VW Group vehicles, including Audi A1, A2, Q2, Q3, Skoda Fabia, Octavia, Rapid, Seat Arona, Ateca, Ibiza, Leon, and Toledo models manufactured from 2017 onwards.

Ivor Searle remanufactures turbochargers to a high standard, ensuring performance and reliability. All Ivor Searle turbochargers come with a two-year unlimited mileage warranty for parts and labour, providing peace of mind for customers. Additionally, Ivor Searle offers free next-day delivery within mainland UK for orders placed before 3:30pm.
